

ENHANCE

Enhanced Treatment for Headache

Do you suffer from recurrent headaches or migraines?

Would you like to participate in research on the management of recurrent headaches and migraines?

ENHANCE is a Griffith University research project currently seeking participants as part of a study on the behavioural management of triggers related to recurrent headaches/migraines.

What do participants get?

You will be offered treatment by registered psychologists to assist you to manage your headaches / migraines for a period of 12 weeks.

Can I participate?

To qualify for the study you must be aged 18 years of age or older, suffer regular headaches (minimum six headache days per month), and have experienced these headaches for at least 12 months.

If you would like to know more or to participate in this research, please contact our ENHANCE project staff.
